FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Dear Secretary

FCC - MAIL ROOM

I have been a amateur radio operator fo over thirty years. And I am the holder of a General Radiotelephone License for more than twelve years. I started toying with equipment for 902mhz about a year after the band was given to the ham community.

As a result of the use of this "new" spectrum it has broadened my interests in the higher frequencies. I am an avid user of this frequency as well as 1296mhz, and currently getting interested in 10ghz. Had it not been for the opening of the 902-928mhz band I may still be just an "operator" instead an avid experimenter.

Therefore I urge you consider FCC Docket 93-61 And to leave the 902-928mhz as it presently stands.

Sincerely

Charles Grabowski WA2ONK
